

THISAL KEKIRIDENIYA - Full Stack Developer

Moratuwa, Sri Lanka | 077 848 3361 | thisalkekirideniya@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results driven Full Stack Developer with hands-on experience designing, developing, and deploying scalable web applications from concept to production. Skilled in building responsive frontend interfaces, backend APIs, database-driven systems, and cloud ready deployments using React.js, Node.js, Express.js, Firebase, MySQL, and JavaScript. Proven ability to independently manage complete software development lifecycles, including UI/UX design, coding, debugging, CI/CD automation, deployment, and post launch optimization. Strong foundation in frontend, backend, and modern engineering practices with a passion for building high quality software solutions.

TECHNICAL SKILLS

- Programming Languages:** JavaScript, Java, Python, C#
- Frontend Technologies:** React.js, React Native, Angular, HTML5, CSS3, Tailwind CSS
- Backend Technologies:** Node.js, Express.js, Java JAX-RS (Jersey)
- Databases:** MySQL, Firebase
- Cloud & DevOps:** AWS, Azure, Docker, CI/CD Pipelines, GitHub Actions
- Tools & Platforms:** GitHub, Postman, Figma, Canva
- Concepts & Practices:** REST APIs, OOP, JSON, Responsive Design, UI/UX Design, SEO Optimization, Debugging, Deployment, Manual QA, Agile Development

PROFESSIONAL EXPERIENCE

Full Stack Developer - Dynamic AV Technologies | May 2025 – Present

- Lead end-to-end development of multiple web applications as the sole technical owner, from planning to production deployment.
- Designed and developed responsive frontend interfaces using React.js, Tailwind CSS, HTML, and JavaScript.
- Built backend APIs, authentication systems, business logic, and database integrations using Node.js, Express.js, and MySQL/Firebase.
- Managed the complete SDLC including requirement gathering, UI/UX planning, development, testing, debugging, deployment, and maintenance.
- Implemented CI/CD pipelines to automate builds, testing, and production releases using GitHub workflows.
- Optimized application performance, SEO, scalability, and cross-device compatibility.
- Monitored live environments, resolved production issues, and delivered continuous improvements.

Data Analysis & Recoveries - Seylan Bank PLC | 2024 – May 2025

- Analyzed transaction-related data to identify discrepancies, trends, and recovery opportunities.
- Supported financial recovery operations while ensuring accuracy, confidentiality, and compliance standards.
- Prepared reports, maintained records, and assisted with data reconciliation processes.
- Collaborated with internal teams to improve recovery workflows and timely case resolution.

PROJECTS

AVStore E-commerce Platform

Tech Stack: React.js, Node.js, Express.js, Firebase, Tailwind CSS

- Designed and developed a full-stack e-commerce platform with scalable architecture and secure user flows.
- Built an admin dashboard for inventory, product catalog, customer, and order management.
- Developed RESTful APIs for authentication, product handling, and order processing.
- Created a responsive frontend optimized for desktop, tablet, and mobile devices.
- Integrated Firebase for authentication, hosting, and real-time features.
- Implemented CI/CD pipelines and GitHub workflows for streamlined deployment.
- Optimized performance, maintainability, and loading speed for future scalability.

Dynamic AV Technologies Corporate Website

Tech Stack: React.js, Tailwind CSS, Framer Motion

- Designed and developed a modern corporate website to enhance brand presence and customer engagement.
- Built responsive interfaces using reusable React components and Tailwind CSS.
- Implemented smooth animations and interactive user experiences using Framer Motion.
- Improved technical SEO, metadata structure, and page performance.
- Ensured cross-browser compatibility and seamless responsiveness across devices.
- Built CI/CD workflows for automated testing and production deployment.
- Managed ongoing updates and feature enhancements based on business needs.

EDUQUEST

Tech Stack: HTML, CSS, Java, React, Tailwind CSS, Unity

- Developed an educational platform for Grade 1–5 students with interactive activities for Math and English learning.
- Focused on creating an engaging and accessible learning experience through interactive UI elements.

BookStore RESTful API

Tech Stack: Java, JAX-RS (Jersey), Apache Tomcat

- Created a RESTful API with CRUD functionality for managing books using JSON-based data handling.
- Implemented exception handling and deployed the application on Apache Tomcat.

Regal Bookshop Website

Tech Stack: HTML, CSS, Java

- Built a responsive website for a local bookshop to showcase books, promotions, and store information.
- Implemented clean navigation, search-related functionality, and user-friendly page layouts.

Personal Finance Tracker

Tech Stack: Python, JSON

- Developed a personal budgeting application to record income and expenses and display balance summaries and transaction history.

University Student Module System

Tech Stack: Java, OOP, File Handling

- Built a desktop-based student module management system for handling academic records and grades.
- Applied object-oriented programming principles to create a modular and maintainable structure.

EDUCATION

BSc (Hons) Computer Science

Informatics Institute of Technology (IIT), Sri Lanka - *University of Westminster, UK* - 2023 – 2026

GCE Advanced Level - D. S. Senanayake College, Colombo 07 – 2022

Combined Mathematics – C | Physics – C | Chemistry – C

GCE Ordinary Level - D. S. Senanayake College, Col 07 – 2019 | 8 A's and 1 B

EXTRA-CURRICULAR ACTIVITIES

- Rugger Captain – Under 18 Team
- Junior Orchestra Leader
- All Island Rugby Championship Participant
- Earned Visharada qualification in Violin

LANGUAGES

- English – Fluent
- Sinhala – Fluent
